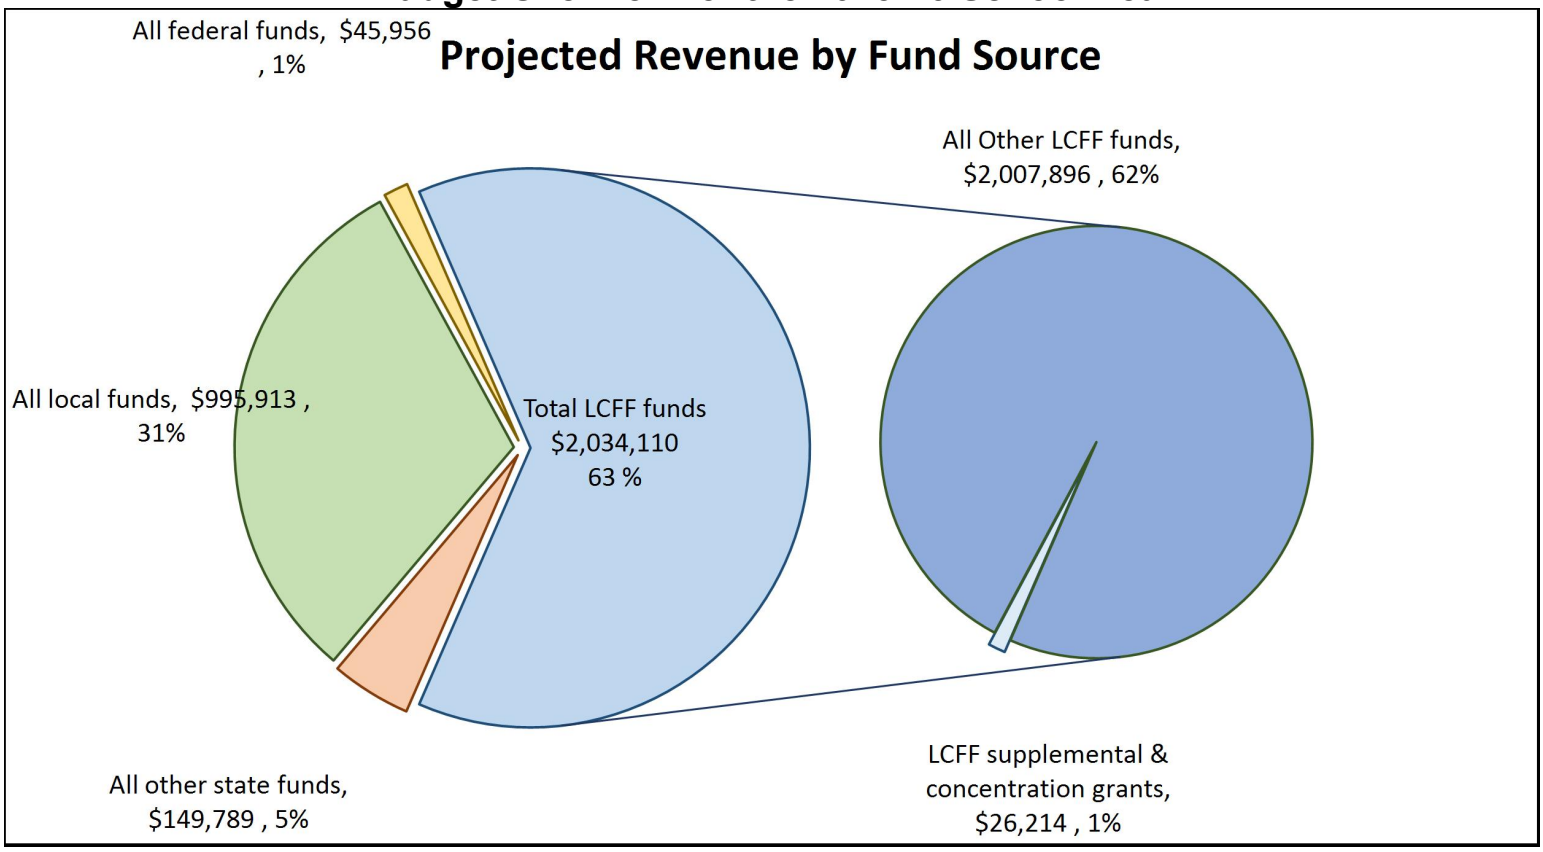
LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Lakeside Joint School District
CDS Code: 43-69492-6047351
School Year: 2025-26
LEA contact information:
Dr. Sean Joyce, PhD
Superintendent
nwojcik@lakesidelosgatos.org
408-354-2372

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

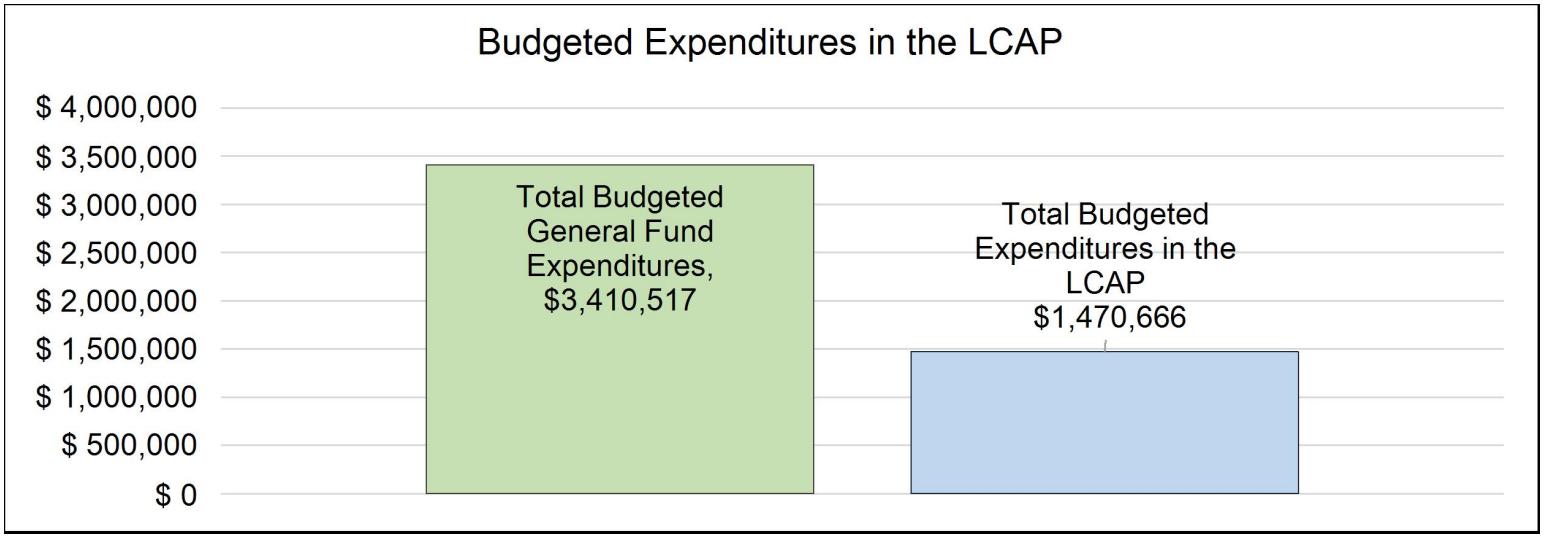


This chart shows the total general purpose revenue Lakeside Joint School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Lakeside Joint School District is $3,225,768, of which $2,034,110 is Local Control Funding Formula (LCFF), $149,789 is other state funds, $995,913 is local funds, and $45,956 is federal funds. Of the $2,034,110 in LCFF Funds, $26,214 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.



This chart provides a quick summary of how much Lakeside Joint School District plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Lakeside Joint School District plans to spend $3,410,517 for the 2025-26 school year. Of that amount, $1,470,666.00 is tied to actions/services in the LCAP and $1,939,851 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

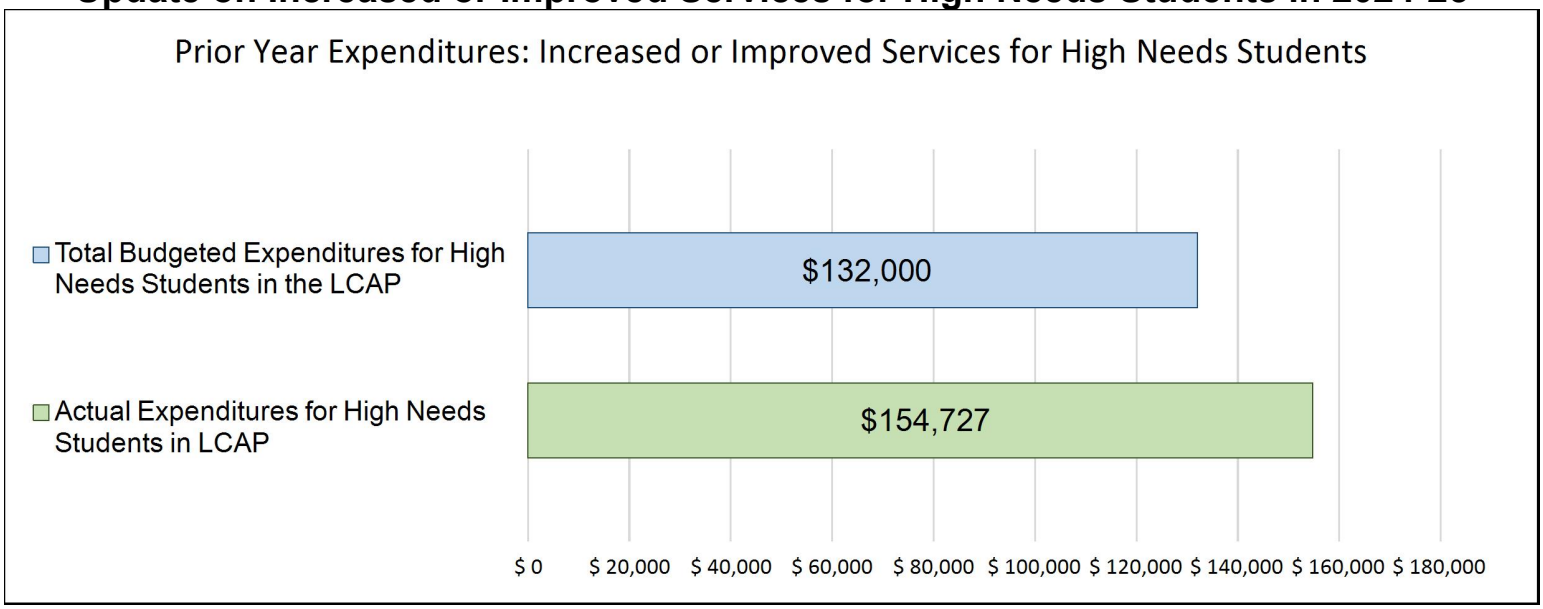
The General Fund Budget expenditures not included in the LCAP are funds used for Maintenance and Operations, the Universal Meal Program, the school and district administration employees, utilities expenses, etc..

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Lakeside Joint School District is projecting it will receive $26,214 based on the enrollment of foster youth, English learner, and low-income students. Lakeside Joint School District must describe how it intends to increase or improve services for high needs students in the LCAP. Lakeside Joint School District plans to spend $198,828 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25



This chart compares what Lakeside Joint School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Lakeside Joint School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Lakeside Joint School District's LCAP budgeted $132,000 for planned actions to increase or improve services for high needs students. Lakeside Joint School District actually spent $154,727.00 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Vision:
Lakeside Students will achieve at their highest potential to be prepared for their future.
Mission:
Our mission is to create independent learners with a rich and challenging curriculum, distinguished by instructional variety, innovation and collaboration while fostering social-emotional strength.

Lakeside School is a small "jewel" nestled in the hills of the Santa Cruz Mountains, straddling both Santa Cruz and Santa Clara Counties, overlooking Silicon Valley. Lakeside School has a rich history, established in 1881 as a one-teacher 1st through 8th grade single room school until the mid-1950s. The history of Lakeside School is deeply intertwined with the Los Gatos and the Santa Cruz Mountains. During the first 80 years, Lakeside School became the local educational agency that would incorporate Central, Brown, Castle Rock, and Fairview Schools. The bulk of our current campus was built in 1967, with our Community Center completed in 2004. One of the early buildings used to house Lakeside School was moved to its present location in 1917, atop the hill, across the playground and playing field, opposite the current school building. This original one-room schoolhouse is currently used by the Los Gatos-Saratoga Observation Nursery School. Existing in the more rural mountain area, the Lakeside School Community is often challenged with access to basic services, being affected by frequent power outages (some of which are intentionally created by PG&E), less reliable cell phone and internet access, dramatic reduction in well water (due to the extended drought), the occasional local area wildfires (and the resultant evacuations, and later seasonal mudslide and debris flow evacuations) and road closures are some of the more common experiences that occur in this mountain community. Our school community is spread out over a large geographical area with no District provided transportation to and from school. A parent may easily spend 20-30

minutes driving their child to or from Lakeside School and much more than that transporting their student to a middle or high school assigned to our community.

Kindergarten was finally added in 1984, and Transitional Kindergarten in 2019. Lakeside's largest enrollment peaked in 1986 with 180 students. in 1997 the Lakeside Joint School District Board of Trustees voted to move their grades 6-8 (middle school) program off site to neighboring middle schools in nearby school districts. Currently, Lakeside JSD middle school students are being served at CT English MS in the Loma Prieta Joint Union Elementary School District, Dartmouth MS in the Union School District, and Redwood MS in the Saratoga Union School District.

Today, Tk-8 enrollment hovers around 110 students, with the elementary school enrollment ranging from low 70's to high 70's, and the middle school enrollment ranging between 30 and 50 students. Lakeside School has five full-time general education teachers (three of whom are teaching in multi-grade classrooms) and 1 special education teacher, serving TK-to-fifth grade at our Black Road campus, and those MOU negotiated partnerships with three neighboring districts to serve our 6-8 middle school students. Lakeside's mission is to equip our children with the skills, knowledge, and "can-do" attitudes necessary to become responsible, successful leaders of our society who are mindful of their role and responsibility in a global society. We meet our goals by providing a well-trained instructional and support staff, a comprehensive and robust curriculum, a mountain community involved in the life and function of the school, and a feasible, responsive, and sustainable funding plan.

The average number of students per multi-grade level class at Lakeside is 15.6. Part of what makes Lakeside School shine as a public school is our low student-to-teacher ratio and the caring and invested staff that creates important child-adult relationships with each and every student. The value of Lakeside School's partnerships with Saratoga Union SD, Union SD, and Loma Prieta Joint Union Elementary School Districts for the Lakeside School families is school choice. Our parent community have the choice to select from these highly rated, exceptional educational programs to best fit their students' needs socially, emotionally, and academically. As a result, this LCAP plan does not address the state's requirements for grades six through eight grade.

Lakeside Joint School District is a Basic Aid District, the majority of the funding is provided directly from the local property taxes and the Measure A Parcel Tax passed by our community in 2017. A small amount of "State Aid" is provided in addition to the property and parcel taxes. Funding and budget development is an annual challenge and frequently met with concerns regarding the future of Lakeside School and its sustainability based solely on annual public school funding streams. With community donations and private corporate grants raised by the Lakeside Community Foundation, the community continues to invest in Lakeside School's future. The Lakeside Community Foundation funds ensure students receive essential enrichment programs including P.E., technology in the classroom, music, dance, science, art, and garden learning opportunities. These critical programs help provide a well-balanced whole-child curriculum that continues to benefit our students throughout their educational journey, well beyond their Lakeside campus experiences.

On March 7, 2017, Measure A passed with 70.31% of the vote allowing Lakeside School to continue to provide an excellent education to our students. The small intimate setting provides the Lakeside School staff with the opportunity to know well every student and family. The small school district/school setting also creates challenges. There is no real "capacity of scale" in LJSD with regard to funding and providing the very best programs for each and every student; the District is essentially resource poor and depends substantially on human capital year in and year out to remain open. Sufficient funding for just sustainability, beyond educational innovation, is an annual issue even with the

passage of the 2017 Measure A parcel tax. The District must exercise prudent fiscal management while constantly obtaining additional outside funding streams to ensure all funds are successfully directed to implementing the LCAP Goals.

in November of 2024, the District passed Measure HH, the newest parcel tax initiative renewing the existing $647/parcel tax for 8 years, with over 71% of the voter approving the ballot measure. LJSD does not have any schools receiving Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Based upon the State's 2024-2025 Smarter Balanced Summative Assessments, overall student performance scores (grades 3, 4, and 5) 72% of the Lakeside students met or exceeded the Standard for Math, and 76% met or exceeded the Standard in English Language Arts. Though all of the grade level student numbers are relatively small and border on being statistically insignificant, it is important to note both the individual student growth and the collective grade level growth in all three grade levels: 3rd Grade demonstrated the greatest growth and highest level of performance with a total of 13 students (with one student's scores below standards who was only in partial attendance to Lakeside) all meeting or exceeding standards in math, and all but one doing the same in ELA. 60% of 4th grade students met or exceeded the ELA standards and 80% met or exceeded standards in math. 72% of 5th grade met or exceed standards in ELA and 45% met ore exceeded in math, with 81% meeting or exceeding the science standards. 75% of the 4th grade and 70% of the 5th grade met or exceeded the Writing convention portion of the assessment. All of these numbers are statistically too small to be considered reliable, valid and significant. None-the-less, 76% of Lakeside students in grades 3-5 meet Standard in English Language and 72% meet Standard in Math, is an important indicator of the District's recent focus on improving student achievement and performance in both areas, and nascent indicator of that success.

Lakeside School is cited as a yellow/average performance indicator for Chronic Absenteeism (for all groups) which for the second year in a row, is a decline in the number of chronic absenteeism (26.5% in 2023, 10.8% in 2024, and 8.8% in 2025). Lakeside School's student population averages 75 students year to year. Overall, our student attendance meets annual expectations. However, with so relatively few students, it only takes 2 or 3 families to take their students on extended trips without applying for short-term independent study, to push Lakeside's attendance into high absentee numbers. For 2024-25 SY, Lakeside School communicated repeatedly with the community concerning the importance of having students in school every day and on time, as well as applying for short-term independent study if students were to be absent for as few as 1 or 2 days.

Having stated this, however, it is worth identifying some notable successes, especially for our ELL students and students with disabilities at Lakeside School. The 2023-2024 ELPAC assessment results identified 100% growth for all students in progress to goals (grade level ELA) and with 75% of the identified returning EL students being reclassified RFEP. Lakeside School has established an inclusive environment, inside and outside of the classroom, that supports and fosters inclusion and is deeply embedded into the school's culture and daily practice. Since SY 2018-2019, Lakeside School has instituted MTSS, PBIS (SY 2022-2023 earning a Silver and SY 2023-2024 a Bronze rating, and a recent preliminary indicator of a return to Silver in SY 2024-2025).

Parent responses to the LCAP survey (with only 33 responses by the time of this reporting) 72%% of the parents responded agree/strongly agree that “Lakeside maintains safe facilities that are conducive to learning”, and 82% agree/strongly agreed that “Lakeside students develop and demonstrate respect for themselves, their community, and the world”. Overall, parental responses to these various prompts elicited both positive agreement that the school/district was doing well in these areas, but also rendered valuable information/feedback that will support the school/district’s increased success in meeting these goals, particularly those questions where parents provided additional narrative responses.
Additional successes regarding Lakeside parents are reflected in the parent survey (only close to 50% of our parent population completed the online survey). Of the 16 prompts (newly created to align with the new LCAP and tis 5 goals) only one had a response rate over 9% of disagree/strongly disagree, with the remaining 15 prompts having between 18% to 42% responding unsure to the prompts:

- 79%% of parents responded that they felt Lakeside School is implementing the Common Core CA Standards for ELA,
- 82% stated they felt Lakeside provides its students with curriculum and instruction that reflects the core values of diversity, equity, inclusion, and belonging,
- 82% felt Lakeside students develop and demonstrate respect for themselves, their community, and the world,
- 70% agreed/strongly agreed that Lakeside provides sufficient family/student/community engagement opportunities to support student learning
- 70% agreed/strongly agreed that Lakeside provides sufficient family/student/community engagement opportunities to build long-term community goodwill
- 72% felt Lakeside maintains safe facilities that are conducive to learning
- 70% felt Lakeside provides access to high quality learning materials
- 55% responded as agree/strongly agree to 1.) Lakeside provides a sufficient quantity and quality of Project Based Learning opportunities to its students and 2.) Lakeside students develop and demonstrate high executive function. While 36% and 45% respectively responding as unsure to the same two prompts.

All of these parent responses are both substantive and instrumental in guiding the work Lakeside School has done and needs to continue to increase its success with parent stakeholders.

Lakeside School was able to deliver the SEL program to all students during the 2024-25 school year being able to hire an in-person SEL school counselor and BCBA. The PBIS Committee struggled less throughout the school year than the previous year. This year’s PBIS Committee was able to manage the school’s PBIS program administer the Tiered Fidelity Inventory (TFI) and the Fidelity Integration Assessment during the school year. As of this writing, the District has been notified of an expected Silver Award in the PBIS system.

In addition, Lakeside School’s instructional staff utilized the Fundations multisensory, structured language program targeting phonological awareness, phonics/word study, vocabulary, high frequency words, handwriting and spelling. The Fundations program is a tiered support and preventative program. Students are placed into the program based upon their developmental levels, rather than by age or grade levels. The Fundations program provides intervention for struggling students through tier II and tier III (Wilson Reading System) interventions. Students who did not demonstrate 80% proficiency in 3 consecutive unit tests are automatically enrolled in the tier II intervention program. Students who require the Wilson Reading System (tier III) are typically seen by the RSP teacher.

LJSD does not have unspent LREBG funds.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not Applicable

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Lakeside School is not identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Lakeside School is not identified for CSI.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Lakeside School is not identified for CSI.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
LJSD does not receive Equity Multiplier funds. Lakeside School partnership with regard to the development of the LCAP involved the local community of parents, students, the teachers and their bargaining unit, the classified and certificated staff, the school and district administration and the Board of Trustees, the SCCOE LCAP personnel and NW SELPA III consultant. These stakeholders were engaged through Town Hall and Board meetings, the School Site Council, PBIS Committee, student/parent/staff surveys, monthly LTA and PLC meetings, and our Family And Community Team input/feedback, Second Cup of Coffee, weekly school and district newsletters.	Beginning in August 2023 during the monthly Board of Trustees meetings, the District began reporting to the Board and school community the focus for the new school year, primarily represented by changes from the previous school year, and soliciting parent volunteers for participation on the PBIS committee, School Site Council. The District conducted the first of a series of Town Hall meetings, inviting the broader school community to learn about the many changes, and rationale for such changes, put in place by the District, and provide input and feedback from the community. Because Lakeside Joint School District is so small, with 77 Tk-5th grade students representing 52 families, 6 full-time teachers (and 3 part-time enrichment teachers), 4 full-time and 2 part-time instructional assistants, 3 part-time classified office assistants and a superintendent/principal, Lakeside School is unable to maintain the usual normal number of stakeholder committees that many schools and districts maintain. Thus, Lakeside School essentially combines most of the purposes and functions of the myriad stakeholder committees into just a few that are more easily managed and constituted by volunteers simply because it does not have a significant pool of staff, student, and parent volunteers. As it true of most organizations, 80% of the work is completed by 20% of its members, and in Lakeside's case all the myriad functions are fulfilled by the same handful of people who volunteer. • The District used weekly email updates to keep the school community apprised of changes and developments of:

Educational Partner(s)	Process for Engagement
	o Various communication streams o opportunities for participation from parents to be involved in the shared decision making as represented by committee involvement, or attendance at community or townhall meetings o participation in the Family And Community Team o classroom, event, and fieldtrip volunteering • The PBIS Committee began their monthly meetings in October and maintained their focus on the PBIS, SEL, MTSS and student behavior/discipline data for the school, district, and community • The School Site Council was reconstituted (with an entirely new membership due to the transition of the previous council membership) in late October and met monthly to address the LCAP specifically, and initially the possible adoption of either a math or a social studies curriculum (or both) • Student Council was formed in November and met biweekly with their advisor to address student and school concerns and provide leadership as representatives collaborating with school and district administration • The District met monthly with the Lakeside Techers Association • The instructional staff (certificated and classified faculty) met monthly in the Professional Learning Community which focused primarily on the LCAP goals aimed at students' academic achievement and supporting a highly effective teaching and learning program at Lakeside. • The Lakeside School staff met monthly • The District administered surveys that pertained to critical issues and the LCAP specifically were administered in early June to the parent community, the Lakeside School staff, and the Lakeside School students in grade 3rd-5th * 10 monthly Second Cup of Coffee where our community meet from 8:30-10:00 with the Principal o The results of these surveys were reported to our Board of Trustees at a regularly scheduled monthly meeting in May and June. The major events and sources of input and feedback for the 2024-

Educational Partner(s)	Process for Engagement
	2027 LCAP were obtained through: 1. Board Meetings – 8/9/24, 9/6/24, 9/14/24, 10/4/24, 10/18/24, 11/1/24, 12/6/24, 12/13/24, 1/10/25, 2/7/25, 3/6/25, 4/3/25, 4/20/25, 5/1/25, 5/15,25, 6/12/25, 6/25/25, 6/30/25 2. Lakeside School Community Foundation Meetings – 7/11/24, 8/8/24, 9/12/24, 10/10/24, 11/14/24, 12/12/24, 1/9/25, 2/13/25, 3/12/25, 4/2/25, 5/14/25, 6/4/25 3. School Site Council/Parent Advisory Committee Meetings – 10/26/24, 11/2/24, 12/7/24, 1/11/25, 2/1/25, 3/7/25, 4/4/25, 5/2/25, 6/6/25 4. LCAP Parent Survey – 4/2/24-4/19/24 5. Town Hall Meetings – 9/20/24, 1/31/25, 2/8/25, 4/24/25 6. Lakeside Teachers Association Meetings – 9/20/24, 10/3/24, 11/7/24, 12/5/24, 1/9/25, 2/6/25, 3/5/25, 4/4/25, 4/16/25, 5/7/25, 6/4/25, 7. Lakeside Staff and Faculty Meetings – 9/27/24, 11/1/24, 11/15/24, 12/6/24, 1/17/25, 2/7/25, 4/24/25, 5/22/25, 6/5/25 8. LCAP Student Survey – 4/19/24-4/26/24 9. LCAP Staff Survey – 4/19/24-4/26/24 10. Lakeside Staff – 11/4/21, 5/27/22 11. Special Education Local Plan Area – 6/25/25 12. Open House – 5/9/25 13. Back to School Night – 8/31/24 14. LCSF Welcome Back Chalk Talk – 8/17/24 15. Back to School Coffee and Conversations – 8/18/24 16. Back to School Picnic – 9/7/24 17. Independent Citizen Oversight Committee Meeting – 5/15/25 18. The LCAP Public Hearing was held 6/25/25 and adopted by the LJSD Board of Trustees 6/30/25

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Our LCAP was collaboratively created. Parent and staff input drove the plan. Concerns from all stakeholders concentrated on learning loss due to distance learning and social emotional needs of students due to isolation during the pandemic shelter in place order. Parent feedback in fall of 2020 fixated on the need to address learning loss and the lack of opportunity for students to interact with each other during the 2020-

21 school year, this was again repeated in 2021-2022. Staff input targeted learning loss and re-establishing relationships for students in support of their social, emotional, and mental health needs. This need was immediately apparent to most of the classroom instructional staff when observing student behaviors specific to students in grades 1st- 3rd where it was not uncommon for some students to frequently disengage in an activity that was not of their immediate interest. Some of these behaviors were manifested as off-task and self-districting, frequently with students getting out of their seats and wandering the classroom or putting away their materials with teacher direction and before the lesson was completed. The immediate need to support student learning loss, especially in reading, was the priority expressed by the staff in May 2022. In late May and early June 2022, parents expressed a need for more strategies to engage students, concerted efforts to increase student achievement (especially for high achieving students), and further enhance school to home communication especially with respect to student achievement and progress. to that end, Lakeside School reconstituted its teaching staff before the 2023-2024 SY and again replaced one teacher in 2024-2025 SY with an experience dual certified ECE teacher who also is certified in special education who made a positive impact in our Tk/K program and overal special education program this past year.

During the 2023-2024 SY, the Lakeside School Site Council accepted the responsibility of reviewing the District's previous LCAP and leading the effort in developing the new 2024-2027 LCAP. This SSC consisted of 4 volunteers who served as parents, 3 who served as teachers and an administrator. their work is reflected in the current monitoring of this 24-27 LCAP, the 24-25 Mid-Year report and the 24-25 LCAP surveys.

Mr. Leo Mapagu (Executive Director, Santa Clara County Special Education Local Plan Areas I, II, III, IV, VII), Lakeside JSD’s SELPA LCAP Consultant provided his feedback June 24, 2025 upon review of our Dashboard Indicators and LCAP. Reflecting upon our Dashboard Indicators, he indicated his understanding of the difficulty of specifying students with disabilities in our LCAP since our overall student population is low and data is not calculated when the numbers are so low. He acknowledged the overall low numbers meant that students with disabilities were included in the data under all students.
He however did note indicated successes for students with disabilities due to Lakeside School’s focus on inclusion and inclusive practice in the School’s culture and that MTSS and PBIS is embedded in daily practice and within all programs and structures, as reflected in Lakeside School’s earning of a Silver PBIS Award. He also cited the District’s success for supporting all students with specific personnel, e.g., Behavioral Specialist/BCBA and SEL Coordinator. Included in his feedback, Mr. Mapagu included a few specific targeted questions regarding the three LCAP goals and associated actions.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	All students will progress academically to meet or exceed the Common Core State Standards and realize their full potential.	Focus Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

LJSD is a tiny, single school, public school district (TK-8, with middle school students grades 6-8, attending schools in three different districts) somewhat anomalous, that has struggled for over 25 years to remain solvent and financially viable and sustainable. Current state funding does not align with annual costs for the District (e.g., PERS/STRS increases, increases in costs for health benefits, salary increases which remain lowest in Santa Clara County, but necessary to maintain a high-quality instructional staff, etc.) consequently, the District struggles annually to provide the very best public school educational opportunities and experiences for every student.

The number of English learners and students with a disability, within any given year is dynamic, and has ranged between 10% and almost 25% for English learners, and between 12% to over 30% for students with a disability of the total elementary school population. Consequently, the District has had to maintain, annually, a fairly high percentage of adults to students within the classroom, as well as specialists to support every student and the more prevalent types of students needs commonly identified every year (e.g., a Board-Certified Behavior Analyst). The volatile number of students with disabilities and the dynamic range of needs of identified students, has made managing the District's annual Maintenance of Effort extremely difficult.

The current school and district facilities were constructed in 1964 (with several additional portable classroom buildings that are more than 60 years old) and the Community Center (a multi-purpose building) was added in 2004 through multiple organizational funding (the Red Cross, LJSD facility bond, Los Gatos Saratoga Recreation Department and a private family donation). Through the use of a Memorandum of Understanding, the District provides a middle school program to its grades 6-8 students in three different middle schools located in three neighboring school districts. This parent choice opportunity provides our community with unique options for their middle school students that many larger school districts could not offer. However, this opportunity comes at a cost to our district in a number of ways.

- LJSD must pay transportation costs to transport any of the middle school students with an IEP to these different schools
- LJSD must pay the program costs of each LJSD student who attends two of the three middle school in these districts
- LJSD must pay all of the special education program and support costs of each LJSD student with an IEP who attends any of the three middle school in these districts

- LJSD has no control over the quality, integrity, and implementation of the academic programs or the support services (special education) in any of the three school districts, but is liable for any and all failings

The current physical plant is not capable of adequately and appropriately providing a middle school program for the District's middle school students. The funding for a comprehensive and 21st Century middle school facility would easily be in the millions of dollars and sensibly would be combined with new facilities for the current TK-5th grade students which would bring the cost well above $15 - $20 million for a TK-8 student population that vacillates between 100-130 students. Such a cost would have to be approved and borne by the greater Lakeside School community through bond (to provide funding for facility construction) and parcel tax (to provide on-going funding for programs and instructional staff) ballot initiatives.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	Every Lakeside students sufficient access to the CA Standards-aligned instructional materials	The 2024-2025 Local Performance indicator Self-Reflection data pertaining to "students without access to own copies of Standards-aligned instructional materials for use at school and at home is 0%.	Every Lakeside student has sufficient access to the CA Standards-aligned instructional materials in SY 2024-2025.		By June 2027,100% of Lakeside students with access the state standards-aligned instructional material as measured by the Dashboard Local Indicator Self-Reflection tool.	No Difference, 100% sufficient access to the CA Standards-aligned instructional materials
1.2	Provide recommended instructional time for protected literacy and numeracy blocks of instruction daily in grade first through fifth grade. Number of minutes	Lakeside provides 90-minute literacy and numeracy blocks of instruction daily	Lakeside provides 90-minute literacy and numeracy blocks of instruction daily, as recommended.		By June 2027, students in grades first through fifth grade will have access to 90 minutes daily of instructional time for both literacy and numeracy as measured by those minutes in the Bell	No Difference, 90-minute literacy and numeracy blocks of instruction daily, as recommended.

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
					and Master Schedules.	
1.3	Emphasize Project Based Learning using a Strength Based Approach and MultiSensory Instruction	No direct baseline data for this metric. General education/Homeroom teachers will deliver a minimum of 4 PBL activities (using SBA and MI strategies) each year as demonstrated by teacher lesson plans, Classroom Walkthrough observations and formal observation.	Lakeside promoted Project Based Learning using a Strength Based Approach and MultiSensory Instruction.		By June 2027, 100% of classrooms will deliver a minimum of 4 PBL lesson activities.	Using teacher lesson plans, Classroom Walkthrough observations and formal observation, General education/Homeroom teachers delivered a minimum of 4 PBL activities (using SBA and MI strategies) this past year.
1.4	Implement consistent assessments to allow for collection and reporting of academic performance metrics in a manner that can be compared year-over-year	The 2023-2024 instructional staff administered to all students 3 times annually, the DIBELS and genre-specific writing assessment (developed by the LEA).	The 2024-2025 instructional staff administered to all students 3 times annually, the DIBELS and genre-specific writing assessment (Writing with Design, developed by the LEA).		By June 2027, 100% of all students will be assessed formally 3 times annually, using DIBELS and a genre-specific writing assessment (developed by the LEA).	No Difference, the 2024-2025 instructional staff administered to all students 3 times annually, the DIBELS and genre-specific writing assessment (Writing with Design, developed by the LEA).
1.5	Implement consistent assessments to allow for collection and reporting of academic performance metrics in a manner that can be compared year-over-year	The 2023-2024 instructional staff administered progress monitored to 100% of all students using Benchmark ELA, Writing By Design, and	The 2024-2025 instructional staff administered progress monitored to 100% of all students using Benchmark ELA, Writing By		By June 2027, 100% of all students will be progress monitored using the Benchmark ELA, Writing By Design, and	No Difference, The 2024-2025 instructional staff administered progress monitored to 100% of all students using Benchmark

The 2026-2027 EOY DIBELS student assessment data willl show 100% percent of students in grade 3 through 5 met or exceeded CA CCSS	The 2024-25 EOY DIBELS student assessment data showed showed an increase of 11% of the students in grade 3 through 5 met or exceeded CA CCSS.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The District was largely successful in its implementation of these goals and actions. Because of the District's and Board of Trustee's focus on developing and protecting instructional blocks (in spite of a small minority of our parent community who opposed these academic changes) throughout the school year, and hiring and retaining exceptional teachers and instructional support, the student achievement in the District continues on a positive upward trend.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In general the District found that its actual costs for supporting SWD increased over projections, but is relatively happy with the effectiveness of the goals and implementation in reflection of the actual cost increase. However, the difference between the budgeted and the estimated actual expenditures for providing students with curriculum that is fully aligned to CA Standards (17% or $2500 under budget) occurred because of the social studies adoption (History Alive, TCI) ended up being for the 4 classrooms rather than the projected 5 classrooms (the District closed one of its classrooms because of the decline in enrollment between SY 2023-2024 and 2024-2025)

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The District was largely effective in its implementation of these goals and actions. Because of the District's and Board of Trustee's focus on developing and protecting instructional blocks (in spite of a small minority of our parent community who opposed these academic changes)

throughout the school year, and hiring and retaining exceptional teachers and instructional support, the student achievement in the District continues on a positive upward trend.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

The District remains committed to continuing to hire and retain the very best possible instructional and support staff, which is largely believed to be the positive difference in the student success for the 2024-2025 SY.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Deliver high quality curriculum and instruction that fully aligns with state standards	Provide all students with curriculum that is fully aligned to CA state standards	$15,000.00	No
1.2	Data-driven decision making through proper assessments	Implement consistent assessments to allow for collection and reporting of academic performance metrics in a manner that can be compared year-over-year	$6,000.00	No
1.3	Multi-sensory learning	Emphasize Project Based Learning using a Strength Based Approach and MultiSensory Instruction where students have the opportunity to creatively and independently problem solve from various perspectives, capitalizing on their strengths and learning styles	$10,000.00	No
1.4	Differentiated learning	Provide differentiated instruction based on ongoing assessments. Teachers will collaborate on strategies for reaching all students using multiple data points, not only for identified learning loss students but also for accelerated learning students	$7,500.00	No

Action #	Title	Description	Total Funds	Contributing
1.5	Responsiveness to learning gaps	Promptly organize a Student Success Team (SST) meeting within 4 weeks of parent or staff-identified concerns, continue SST activities until a documented curative action is implemented (IEP / 504 / or supplemental supports)	$5,000.00	No
1.6	English Language Learners	Provide differentiated instruction to English Learner students and track progress with consistent year over year metrics.	$15,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Educate the whole child to be creative critical thinkers with high executive function, strong social responsibility, and respect for themselves, their community, and their world.	Broad Goal

State Priorities addressed by this goal.

Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

In the 2018-2019 School Year, the District began a school wide PBIS and MTSS implementation. The complete transition has been hampered by the pandemic and the resultant remote learning environment, and the turnover in the teaching staff through retirement, moving out of state, and non-rehires. In large part the transition to an MTSS/PBIS school was made to address and support the high percentage of students with special needs (IEP, 504, ELL, etc.), and a response to our parent community who provided feedback specific to successes/failures, strengths/challenges, and elements of celebration/growth (or change) in the spring of 2019. We recognize that this is a critical area of need for our school community as well as an emphasis our Board and staff share, as we continue to make this a systemic and permanent foundation within our school culture. While the 2020-2021 LCAP parent survey responses praised the District for acknowledging and working to improve the school climate in this way, there is obvious work to be done to enculturate it.

The most recent, 2023-2024 data based upon parent, staff and student survey indicated a refocusing of school/district resources address those concerns expressed in the LCAP surveys, as well as the feedback and input from the 2023-2024 School Site Council, which consisted largely of parent volunteers.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Strengths and Difficulties Questionnaire (SDQ) administered twice yearly to determine student psychological attributes/mental health.	The SDQ is administered twice yearly (BOY and EOY) to 100% of students (data used to identify mental health needs as supported through Tier	The SDQ was administered twice yearly (MOY and EOY) to 100% of students (data used to identify mental health		Aggregated student responses for the twice annual SDQ survey results reported to the Board of Trustees	The Difference is that the District administers the SDQ MOY and EOY, and not at the BOY as the teachers have little

		2 and Tier 3 interventions with mental health professionals)	needs as supported through Tier 2 and Tier 3 interventions with mental health professionals).		in October 2026 and June 2027 along with the resultant Tier 2 and Tier 3 interventions for those students identified	knowledge of their students with the first two weeks of school to the degree necessary to measure their students.
2.2	Tiered Fidelity Inventory (TFI)	The TFI will be administered twice yearly to demonstrate 70% (Bronze Award level) or higher on three tiers (silver, gold, and platinum)	The TFI was administered twice yearly and as of this report writing, Lakeside earned 80% and a Silver Award based upon this inventory.		Lakeside School will have annually maintained a PBIS Bronze Award level (70%) or higher, as measured by the TFI, by June 2027	Lakeside earned 80% and a Silver Award, over the previous year's 70% and Bronze Award.
2.3	Fidelity Integrity Assessment (FIA)	Lakeside School will use the FIA to determine the level of implementation (score) for the MTSS program, baseline to be determined by the spring 2025 score.	The FIA was administered and as of this report writing, Lakeside earned 80% on its school-wide implementation score on the spring 2025 FIA.		Lakeside School will maintain a sustaining school wide implementation score of 70% on the spring 2027 FIA	The FIA was administered but the District is awaiting results from the COE.
2.4	Social Emotional Learning (SEL) Screener Survey	The SEL Screener will be administered twice yearly to all students, with the baseline of twice yearly administration established in the 2024-25 SY	The SEL Screener (The SDQ Survey) was administered twice in the 2024-2025 SY, at the MOY and EOY		The SEL Screener will be administered to 100% of students, twice yearly, BOY and EOY.	Met the baseline of twice yearly administration of the SEL Screener (The SDQ Survey).
2.5	Social Emotional Learning (SEL) and Behavior	Student attendance, behavior referrals, suspension and	Student attendance, behavior referrals,		Student attendance, behavior referrals,	The Difference was that the student

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
	(referral/suspension) outcomes	expulsion reports presented quarterly to the Board of Trustees annually. The direct baseline data for this metric will be demonstrated in the 2024-25 SY, as measured by quarterly reporting of this data to the Board of Trustees.	suspension and expulsion reports presented quarterly to the Board of Trustees annually, as measured by the Minutes for each monthly Regular Board Meeting.		suspension and expulsion reports presented quarterly to the Board of Trustees annually throughout this LCAP, as demonstrated my quarterly Board Agenda and Minutes for the 2026-2027 SY.	attendance, behavior referrals, suspension and expulsion reports were presented quarterly to the Board of Trustees annually, as measured by the Minutes for each monthly Regular Board Meeting.
2.6	Learning opportunities for all students to interact with and experience appropriate and meaningful activities that actively engage students that reflect and model diversity, equity, inclusion, and belonging (DEIB)	While the current baseline data for this metric does not directly align with the expected outcome in 2027 (for which the school will revise the parent survey prompt accordingly to align directly with the outcome goal in the SY 2024-25 parent survey), the current data related to this metric is based upon the Spring 2024 parent survey response to the prompt: Lakeside creates a sense of belonging that incorporates my family's and child(ren)'s racial, ethnic, and cultural heritage, religious beliefs and gender identity. The parent	The spring parent and staff LCAP indicated that 82% of parents and 100% of staff believe that Lakeside provides its students with curriculum and instruction that reflects the core values of diversity, equity, inclusion, and belonging.		By June 2027, all parent and staff respondents will respond 100% to agree or strongly agree to the LCAP survey prompt, "Lakeside School provides students with curriculum and instruction that reflects the core values of diversity, equity, inclusion, and belonging"	The spring parent and staff LCAP indicated that 82% of parents and 100% of staff believe that Lakeside provides its students with curriculum and instruction that reflects the core values of diversity, equity, inclusion, and belonging.

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
		responses to the 2023-24 survey question was 41% agreed and 38% strongly agreed to the prompt (a 79% agreement to this prompt as the baseline for this outcome in 2027).				
2.7	Lakeside LCAP Student Survey results regarding feeling physically and emotionally safe at school, respected by peers and adults, and supported by at least one specific adult at school.	The Spring 2024 student survey data is used as the baseline for this outcome. 74% of students agree or strongly agree to prompts indicating student respect, safety, and wellbeing while at school	92% of students, ST 2024-2025, responded to prompt, "feeling safe on campus" in agreement or strongly agreement.		by June 2027, Lakeside students will respond 100% agree or strongly agree to prompts indicating student respect, safety, and wellbeing while at school.	A difference of 18% positive increase to the prompt.
2.8	Social Emotional Learning (SEL) staff contracts	As of June 2024, LJSD hired highly qualified staff to appropriately support all Lakeside students (100%) who have identified SEL needs, as per all IEPs, 504s, and SSTs.	As of June 2025, LJSD hired highly qualified staff to appropriately support all Lakeside students (100%) who have identified SEL needs, as per all IEPs, 504s, and SSTs.		By June 2027, 100% of Lakeside students' identified SEL needs are appropriately and effectively supported by highly qualified and certificated support providers	No Difference, Lakeside maintained this standard at the 100% level.
2.9	Parent LCAP Survey	As this is a new metric, there is no current Spring 2024 baseline. The baseline for this metric will be established based upon the 2024-25 parent	The spring 2025 Parent LCAP survey found 67% of respondents agreed/strongly agreed to the prompt: I am		By June 2027, 100% of Lakeside parents responding to the LCAP survey will respond agree or strongly agree to	The Baseline, established in SY 2024-2025 for this goal is 67% agreed/strongly agreed on the LCAP Survey

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
		survey, regarding parental awareness of Lakeside School's PBIS and MTSS program implementation.	aware of Lakeside's PBIS and MTSS programs and/or know where to find the pertinent information, while 24% responded they were unsure.		an awareness of the school's PBIS and MTSS programs	pertaining to the prompt I am aware of the PBIS/MTSS Program . . .
2.10	Parent participation on school and district committees	The 2023-2024 parental participation in Lakeside JSD committees, was as follows: Citizens Initiative Oversight Committee: 2 of 5 members, School Site Council: 4 of 8 members, PBIS Committee: 1 parent/employee of 5 members, Parcel Tax Ad Hoc Committee: 4 of 8, and Board of Trustees: 3 of 5 members.	The 2024-2025 Citizens Initiative Oversight Committee: 2 of 5 parent positions School Site Council: 3 of 3 parent positions PBIS Committee: 1 of 1 parent positions Parcel Tax Ad Hoc Committee: 8 of 10 parent positions Board of Trustees: 5 of 5 parent positions		By June 2027, all required parent participation on school/district stakeholder committees will be 100% met by these LJSD committees	The 2024-2025 SY parent participation on all school and district committees met or exceeded all previous and required participation.
2.11	Public communication of District's progress in implementing, maintaining, sustaining, and success with its Problem-Based Learning (PBL), Positive Behavioral Interventions (PBIS), and Supports and Multi-Tiered System	During the 2023-2024 SY, the District made two formal reports during monthly Board of Trustee Meetings reflecting the progress of the PBL, PBIS and MTSS programs.	During the 2024-2025 SY, the District made formal principal and superintendent reports during monthly Board of Trustee Meetings reflecting the		By June 2027 and throughout each year of this LCAP, the District will maintain monthly communication to the public reporting on the progress of its PBL, PBIS, and MTSS programs	The Difference was that the District reported, through principal and superintendent reports to the Board of Trustees during their regular monthly meetings.

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
	of Supports (MTSS) programs		progress of the PBL, PBIS and MTSS programs. For the 2025-2026 SY, this information could also be include monthly in the Lakeside weekly newsletter.			
2.12	All teachers will deliver at least 2 Problem-Based Learning (PBL) lessons each year	During the 2023-2024 SY, 3 of 5 teachers delivered 3 or more PBL lessons, and 1 of 5 delivered at least 2 PBL lessons.	During the 2024-2025 SY, the 4 general education teachers (4 of 4) developed and delivered 2 or more PBL lessons.		By June 2027, 100% of Lakeside teachers will have delivered at least 2 PBL lessons each year to their students	The Difference is 100% of the general education teachers developed and delivered 2 or more PBL lessons during the 2024-2025 SY.
2.13	LCAP Parent Survey	As this is a new metric, there is no current Spring 2024 baseline. The baseline for this metric will be established based upon the 2024-25 parent survey, regarding parental awareness of "Lakeside's curriculum for developing executive function and civic awareness of their children."	in the spring 2025 Parent LCAP Survey, 61% respondents agreed/strongly agreed to the prompt: "Lakeside's curriculum for developing executive function and civic awareness of their children", and 30% states they were "unsure."		By June 2027, 100% of Lakeside parents will respond either agree or strongly agree that Lakeside delivers a curriculum for developing executive function and civic awareness for their children	NA
2.14	Lakeside School will maintain a Student	Lakeside School had 100% student	The June 2025 student		By June 2027, 100% of the	No Difference.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

We administered our SDQ survey at the MoY and EoY, instead of the planned BOY (and EoY) because teachers did not know students well enough at the BOY to provide insightful information on the SDQ. With the change in school administration, the District experienced a high number and degree of success regarding Goal 2. The relative unfamiliarity with the various surveys included in Goal 2 by the School Site Council in the Spring of 2023, there was some confusion as to some of the metrics for this goal, by both the School Site Council and the LEA. Overall, both the students and staff reported a greater satisfaction with the school and their own sense of safety and ability to learn.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

During the course of the school year, the LEA was able to acquire the services of a school counselor, BCBA, and an RBT for SEL support for our students, staff, and parent community. These costs were not initially planned, but with the access to service providers as the year progressed, and with the needs determined by instructional staff, administrators, and parents, more students were served than initially provided for in the budget. A number of these goals were achieved at a lesser amount of funding that budgeted due to the hiring of highly skilled and prepared teachers who were capable and qualified to deliver PBIS/MTSS focused curriculum and instruction, especially while receiving professional development from SCCOE specific to PBIS/MTSS (which was funded by our SCCOE 901 MOU, and needed no additional funding from the District)[2.1, 2.7, 2.8, 2.9, 2.12 specifically]. the expense of sending our Administrators to the annual CA MTSS Conference used less expenditures than anticipated/budgeted [2.4]. LEA was able to access private funding for 2.6, through the Lakeside Community Foundation, and goals 2.10 and 2.11 ended up as a far lower expense than budgeted because filling all of the required committees in the District took less effort and resource to accomplish [2.10] and the reporting [2.11] to our public through our monthly Board of Trustee Meetings was less expensive than budgeted.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Because the LEA did not develop and include on the parent, student, and staff LCAP surveys questions specific to the Goal 2 matrix, the LEA did not received appropriate feedback and data for several of this goal's metrics. Overall, both the students and staff reported a greater satisfaction with the school and their own sense of safety and ability to learn.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

The LEA will develop and deliver the additional (and missing from this year's current LCAP surveys).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Positive Behavioral Interventions and Supports (PBIS) and Multi-Tiered System of Supports (MTSS) Implementation	Implement PBIS and MTSS best practices with fidelity using the SDQ, TFI, and FIA assessment tools outlined by the Cal. Dept. of Ed.	$5,000.00	No
2.2	Positive Behavioral Interventions and Supports (PBIS) and Multi-Tiered System of Supports (MTSS) Implementation	Report SEL and Behavior outcomes to track longitudinal performance and broad effectiveness of interventions	$8,000.00	No
2.3	Teach and implement Social and Emotional Learning tools with fidelity	Hire and retain onsite BCBA and SEL coordinators/counselors	$32,000.00	No
2.4	Teach and implement Social and Emotional Learning tools with fidelity	Provide all administrators and teaching staff with professional learning to improve knowledge and skills in coaching and supervision of the district-adopted SEL program	$5,000.00	No
2.5	Teach and implement Social and Emotional Learning tools with fidelity	4-day teacher training with county rep for PBIS, which does not cost the District any funds.	$0.00	No
2.6	Stakeholder awareness of	Provide take-home information on the school's PBIS and MTSS implementation, publish copies on the school website	$6,000.00	No

Action #	Title	Description	Total Funds	Contributing
	Positive Behavioral Interventions and Supports (PBIS) and Multi-Tiered System of Supports (MTSS) systems and practices			
2.7	Stakeholder awareness of Positive Behavioral Interventions and Supports (PBIS) and Multi-Tiered System of Supports (MTSS) systems and practices	Recruit parent participation on the PBIS and MTSS committees, this action does not require the District to expend any funds as it is part of existing District costs.	$0.00	No
2.8	Stakeholder awareness of Positive Behavioral Interventions and Supports (PBIS) and Multi-Tiered System of Supports (MTSS) systems and practices	Report and discuss TFI and FIA results biannually at Board of Trustee Meetings	$3,500.00	No
2.9	Promote critical thinking and civic responsibility through classroom instruction	Complete 2 Problem-Based Learning projects per year, per teacher with 1 specifically focused on community and civic responsibility	$8,500.00	No
2.10	Promote critical thinking and civic responsibility through classroom instruction	Provide professional support for all teachers to embed PBL curriculum and instructional program into their classroom practice.	$3,000.00	No
2.11	Promote critical thinking and civic responsibility through classroom instruction	Student Council, Playworks Junior Coach program, civic-focused whole school assemblies, guest teachers/authors, and field trips	$13,000.00	No

Action #	Title	Description	Total Funds	Contributing
2.12	Provide a broad course of study	Enrichment Program including school-day instruction in physical education, science, art, and /or music/garden	$80,630.00	No
2.13	Promote critical thinking and civic responsibility through classroom instruction	Provide learning opportunities for all students to interact with and experience appropriate and meaningful activities that actively engage students that reflect and model diversity, equity, inclusion, and belonging (DEIB)	$3,750.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Continue to attract and retain "top-tier" teachers by providing a positive, quality work environment and promoting relevant professional development for instructional staff.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)
Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

The purpose of all public schools is to provide the best possible academic environment and opportunities for all students. The most important element of that formula, according to the academic data stretching back to the first administration of the National Assessment of Educational Progress (NAEP) in 1969, for students' academic success, is the teacher in the classroom. Lakeside School has struggled with providing competitive salaries for its instructional staff, particularly since the State of California changed it funding formula for public schools, with its other Santa Clara County school districts. With a concerted effort, the Lakeside administration and Board of Trustees has prioritized funding for staff salaries that are more competitive in comparison to other Santa Clara County school districts and exceed those salaries of nearby Santa Cruz County school districts.
In the past 4 years, Lakeside has increased employee salaries 21.75% as well as increasing the health/medical benefits and creating stipends for college degrees, longevity, and certifications. This goal continues this imperative to prioritize employee salaries so as to be able to provide the best possible academic environment and opportunities for all Lakeside students.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Properly Credentialed Teachers	100% of Teachers fully credentialed and	100% of Teachers fully credentialed and qualified		By June 2027, 100% of Teachers	No Difference.

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
		qualified during the 2023-2024 SY	during the 2024-2025 SY		fully credentialed and qualified	
3.2	Annual turnover of Certificated and Classified Instructional Staff	in Spring 2024, the average tenure of 4.2 for both Certificated and Classified Instructional Staff	The spring 2025 tenure was 4.0, and the turnover for both Certificated and Classified Instructional Staff was 7% (1 of 14 positions was not returned for the 2025-2026 SY).		By June of 2027, the average tenure of Certificated and Classified Instructional Staff combined will be 6.2 years	The Difference was that 1 of the 14 Instructional Staff did not return for the 2025-26 SY.
3.3	Staff Salary Rank compared with the same for Santa Clara and Santa Cuz County School Districts	The District's 2024 salary rank in comparison to Santa Clara and Santa Cruz County 901 School Districts was the third highest of the 8 school districts.	The District's 2025 salary rank in comparison to Santa Clara and Santa Cruz County 901 School Districts was the third highest of the 8 school districts.		By June 2027, the District's 2027 salary rank in comparison to Santa Clara and Santa Cruz County 901 School Districts will be above the mean of those 8 districts	No Difference.
3.4	Number of Professional Development hours provided to the Instructional Staff annually	During the 2023-2024 SY all Lakeside Instructional Staff participated in a minimum of 55 hours of Professional Development focused on the District developed PD Plan based upon the needs assessment from the Instructional Staff, as measured by signed attendance sheets.	During the 2024-2025 SY all Lakeside Instructional Staff participated in a minimum of 55 hours of Professional Development focused on the District developed PD Plan based upon the needs assessment from		By June 2027, 100% of Instructional Staff will participate in the District's annually identified PD Plan, which will entail a minimum of 55 hours throughout the SY, as measured by signed attendance sheets	No Difference.

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
			the Instructional Staff, as measured by signed attendance sheets.			
3.5	Number of formal collaboration sessions for Instructional Staff each year	During the 2023-2024 SY, Lakeside provided one 90-minute monthly collaborative session for all Instructional Staff to work together and support each other on common goals, challenges, and school-wide initiatives.	During the 2024-2025 SY, Lakeside provided one 90-minute monthly collaborative session for all Instructional Staff to work together and support each other on common goals, challenges, and school-wide initiatives.		By June 2027, Lakeside School will provide a minimum of 3 hours/month for full staff/faculty collaboration	No Difference.
3.6	Develop a highly collaborative instructional culture/climate/environment	the Spring 2024 Staff response to survey prompt regarding workplace environment/climate/culture as being positive was 71% agreement to the statement.	The spring 2025 Staff LCAP survey prompt: "Lakeside provides and maintains a positive, quality work environment" had 100% of respondents agree/strongly agree.		By June 2027, 100% of the respondents on the Staff/Faculty survey will respond agree/strongly agree to the prompt regarding Lakeside School has a positive workplace environment/climate/culture	The Difference was a positive increase to the prompt by 29% which aligns to the June 2027 goal of 100% agree/strongly agree to the prompt.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The District meet all of the goal and expectations, hiring and retaining the best and highest quality of instructional staff, and providing positive, effective. and supportive professional development.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The only significant difference between budgeted and actual expenditures occurred with goal 3.7, where the District spent less than the budgeted funds to develop a local faculty/staff survey to measure the workplace culture and climate. The District did continue to offer substantive salary increases to certificated and classified personnel.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The District has been very successful in its implementation with this goal and its outcomes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

The District and its Board of Trustees are committed to continuing with these goals and expected outcomes for student success and achievement.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Credentialed Teachers	LJSD will only hire credentialed teachers	$937,958.00	No
3.2	Annual turnover of Certificated and Classified Instructional Staff	Increase the average tenure of 4.2 years for both Certificated and Classified Instructional Staff, as this is part of existing District funding, it does not constitute additional or extra funds.	$0.00	No

Action #	Title	Description	Total Funds	Contributing
3.3	Staff Salary Rank compared with the same for Santa Clara and Santa Cuz County School Districts	Maintain or improve the District's 2024 salary rank in comparison to Santa Clara and Santa Cruz County 901 School Districts, there is no additional funding expended for this goal, as it is part of the District's annual funding for staff salaries and their increases.	$0.00	No
3.4	Number of Professional Development hours provided to the Instructional Staff annually	All Instructional Staff will participate in a minimum of 55 hours annually in Professional Development focused on the District developed PD Plan based upon the needs assessment from the Instructional Staff	$3,500.00	No
3.5	Highly Qualified Instructional Staff	100% of Certificated and Classified Staff who complete the District set annual PD goals. This training, provided by the District for this goal, is already part of existing District funding, as as such, is no additional funding.	$0.00	No
3.6	Number of formal collaboration sessions for Instructional Staff each year	Provide monthly collaborative sessions for all Instructional Staff to work together and support each other on common goals, challenges, and school-wide initiatives	$11,000.00	No
3.7	Develop a highly collaborative instructional culture/climate/environment	Provide a locally developed Staff/Faculty survey administered annually eliciting responds to questions regarding workplace environment/climate/culture	$2,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Encourage meaningful family, student, and community engagement to support student learning, augment school resources, and build long-term community goodwill	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

The 2023-2024 School Site Council, composed of 5 parent volunteers, 2 teacher volunteers and an administrator developed this goal based largely upon the results of the 2022-2023 and 2023-2024 LCAP parent survey results. Being a small mountain (rural) school with an average of 50-55 families in the Lakeside School community, it has been a challenge to maintain a consistent base of parent volunteers to engage in a home to school system in addition to maintaining parent volunteer membership on the Lakeside School Community Foundation, the Board of Trustees, the School Site Council, classroom volunteers and fieldtrip chaperones, and other committees (e.g., PBIS, DELAC/ELAC, PAC, etc.). Since the reopening of Lakeside School post-pandemic, the school has struggled with creating and sustaining an effective home to school communication system. This goal is an attempt to establish it as an important focus for Lakeside.

Measuring and Reporting Results

		the School Site Council represented Lakeside parents, 100% of the FACT team represented Lakeside parents, and Citizens Initiative Oversight Committee consisted of 40% Lakeside parents (though in the previous 2 years it consisted of 60% Lakeside parents, before their student matriculated to middle school)				
4.12	Lakeside will promote parental participation in programs for students with disabilities	In Spring of 2024, the percent of parents of students with a disability that indicated full participation in the IEP process by signing the completed IEP was 100%	By June of 2024, the percent of parents of students with a disability, indicated full participation in the IEP process, by signing the completed IEP at 100% of SWD.		By Spring 2027, 100% of parents of students with a disability will indicate full participation in the IEP process as measured by parental signatures on all completed IEPs	No Difference
4.13	Lakeside will promote parental participation in programs for students with disabilities, as demonstrated by all affirmative check boxes on an IEP to at least 100% signed consent	As this metric is new, there is no baseline data. The baseline for this will be set during the SY 2025-2026 as measured by the check boxes on the signed Consent for Placement form of each SWD's IEP.				The baseline for this will be set during the SY 2024-2025 as measured by the check boxes on the signed Consent for Placement form of each SWD's IEP.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA did not schedule/implement the two Curriculum Nights. The Lea also did not reach the 70% or higher survey respondents because the LEA did not deliver the LCAP survey to all stakeholder groups until after the school year was over, which led to a much lower than normal response rate, and reduced the fidelity and integrity of the survey result for the student group.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The LEA's budgeted expenditures were higher than estimated for goals 4.1, 4.3, 4.6, 4.9, and 4.10 because the cost of staff and resources were less than anticipated, resulting in the LEA spending less than anticipated/budgeted for these goals specifically.
Goal 4.1 expenditures were far less because of the costs for the administrative role was less than anticipated because in part much of it was conducted during normal school hours and duties. Also, the costs of accessing and distributing the student data in the SIS was far less than anticipated as much of it already existed in shareable files.
Goal 4.3 was a lower expenditure than anticipated because the LEA anticipated far more need and use of translators for in-person conferences and meetings, in part based upon previous years' usage, than actually occurred throughout the SY. The use of digital translations reduced significantly the expected costs for language translation in communications, especially weekly newsletters, than anticipated.
Like the other goals in this Goal 4 analysis, goal 4.4 was less than budgeted/anticipated because of the reduced expense of the teachers to prepare and distribute their scope and sequence, and for the administration to support this goal. The use of weekly/monthly newsletter templates and distribution of a monthly school calendar reduced the anticipated expense for this goal, and the resource allocation to accomplish it.
For Goal 4.6, there are several reasons that this goal was not accomplished and therefore had no expenditures. The first reason for this non-expenditure of funds was due to the fact that the first intended Curriculum Nights would focus upon the LEA's newly created Capacity Grant Program, centered on student wellness and the personnel within this program. This program was not developed and the necessary personnel not hired and in place until January of 2025. Which in turn, necessitated the District negotiating with the bargaining units to add the necessary additional duties for the Curriculum Nights. Secondly, the negotiations with LTA (Lakeside Teachers Association) were not accomplished until April of 2025. This seriously reduced the available timeframe within which to schedule and conduct such Curriculum Nights. At that point, the School Administration decided to reschedule these Curriculum Night to the 2025-26 SY.
The difference between the budgeted amount and the actual expenditures for Goal 4.9 involved less administrator costs than anticipated. The reduction in expenses was largely due to 2 factors: 1) the cost of the administrator's role and duties was less than anticipated and the number of events for this public reporting was less than anticipated (e.g., fewer School Site Council meetings, administrator absence to committee/meetings [e.g., Board Meetings], fewer Town Hall meetings than anticipated). The cost for administrator is symbiotic to the events requiring the administrator's presence, fewer events equal less expense.
Goal 4.10 initially included an expense of $2,000 to pay for the costs of resources necessary to complete this anticipated goal. The anticipated expenses included an administrator, and an administrative assistant, and possible expenses for other school personnel to participate in the recruitment and participation in populating the various and necessary committees within the LEA (e.g., SSC, MTSS, PBIS,

and the "Home to School Communication" team, as well as the Board of Trustees [and possible election fees] and the Independent Citizens Oversight Committee. This expense did not materialize, for one, because all of the necessary committees remained populated by returning members, community volunteers reached out to the School/District requesting participation, and the Board Trustee election costs were included in the costs for the Parcel Tax Ballot Initiative. Thus, the LEA did not have an actual expenditures for Goal 4.10.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The LEA received far less stakeholder feedback than expected because of the failure in scheduling the two Curriculum Nights and delivering the LCAP surveys in May. The District was largely successful in meeting this goal and outcomes, specific to parent and community communications and involvement over previous years.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

The LEA is planning on implementing two Curriculum Nights and delivering the LCAP survey to all stakeholder by mid-May.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Provide structured opportunities for volunteering, collaboration, and communication between families and staff	Create and publish school-wide directory each year	$2,000.00	No
4.2	Provide structured opportunities for volunteering, collaboration, and communication between families and staff	Publicize opportunities for parents to volunteer in and outside the classroom	$3,500.00	No
4.3	Provide structured opportunities for	Engage with English Language Learner families through native-language communications	$3,000.00	No

Action #	Title	Description	Total Funds	Contributing
	volunteering, collaboration, and communication between families and staff			
4.4	Provide structured opportunities for volunteering, collaboration, and communication between families and staff	Communicate early and often about school assemblies, drills, events, and new staff through newsletters, emails, and website notices	$2,500.00	No
4.5	Provide structured opportunities for volunteering, collaboration, and communication between families and staff	Provide quarterly syllabi to all parents, per negotiated agreement with labor organizations. There is no additional funding for this goal as it is part of the District's existing funding.	$0.00	No
4.6	Provide structured opportunities for volunteering, collaboration, and communication between families and staff	Host a minimum of 2 annual curriculum nights (Fall and Spring), per negotiated agreement with LTA.	$1,000.00	No
4.7	Provide structured opportunities for volunteering, collaboration, and communication between families and staff	Send home regular examples (monthly) of student classwork. There is no additional funding for this goal as it is part of the District's existing funding.	$0.00	No
4.8	Systematically solicit input from stakeholders, and incorporate feedback	Conduct annual surveys to garner specific input and feedback regarding school practices, programs, initiatives, and governance, and share the survey results publicly at Board Meetings and/or Town Hall Meetings, and staff meetings	$2,000.00	No

Action #	Title	Description	Total Funds	Contributing
	into school governance			
4.9	Engage and inform families about systematic procedures	Standardize, document, and publicize communication practices regarding academic, behavioral, and SEL instruction and support, student progress data, survey results, committee decisions	$5,000.00	No
4.10	Provide families, students, and teachers opportunities to participate in school governance	Recruit parents and community members to serve on SSC, MTSS, PBIS, and the "Home to School Communication" team, such that their required participation rates (% community make-up) are approved by SCCOE Leadership, appropriate for a 901 school/district the size and capacity of Lakeside. There is no additional funding for this goal as it is part of the District's existing funding.	$0.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
5	Provide the fundamental foundations for student academic success and wellbeing through sustainable management of finances; maintaining safe facilities conducive to learning; and access to high quality materials and instructional supports	Broad Goal

State Priorities addressed by this goal.

Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The fundamental purpose of a public school is to provide a proper and appropriate academic, social, emotional, and physical learning opportunity that reflects the highest quality possible as well as the values, beliefs, and expectations of the larger school community to which the public school both serves and mirrors. This goal is at the heart of that purpose. Based upon stakeholder feedback from Lakeside School instructional and support staff, parents, and the Board of Trustees, the genesis of this goal was developed. The LJSD parent survey provides our parent community with the opportunity to respond to a prompt (one of many): "What can Lakeside School do to improve student achievement?" The Lakeside School staff are able to provide feedback into the successes, challenges, and suggested changes/improvements each year that administration is asked to consider and address. The Lakeside Community Foundation specifically provided input into areas of interest and concern for Lakeside administration to consider and address. The LJSD Board of Trustees, during its annual retreat and planning meeting focused specifically on areas of strength, challenges, successes, improvements, and sustainability.

All of these factors and the information provided by the various stakeholders was distilled into developing this and the previous goals for the LCAP. it is intended to be at the heart of why Lakeside School exists and the purpose it serves its student and parent community.

Because of the number of Lakeside School students in grades TK-5, the use of SBAC/CAASPP assessment data is almost irrelevant, unreliable and invalid to determine student achievement and academic success. Because the school community and Lakeside instructional and support staff holds very high expectations for student achievement and success, it is naturally an expectation that such a goal be developed. Parent input and feedback through Town Hall Meetings, Board Meetings, the Five-Year Planning Committee (an Ad Hoc Board of Trustees Committee appointed in 2019), parent surveys and other feedback given to Lakeside administration formally and informally was a large part of the development of this goal. Additionally, the Board of Trustees is committed to and expects this goal to be successfully implemented to reflect the Districts Mission and Vision for student achievement and success.
The COVID-19 pandemic created an antithetical learning environment for many Lakeside School students and consequently necessitated the District’s focus on accelerating learning, addressing skill and knowledge gaps, ensuring adequate and appropriate SEL support, designing lessons and providing learning opportunities for students that demonstrate learning, and develop assessments that measure and demonstrate student achievement and growth.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Monthly Board Meeting agenda item to review budget projections	The SY 2023-2024 Board agendas reflect monthly agenda item to review the District budget and its annual projections, as measured by the monthly Agenda and Minutes.	During the SY 2024-2025 all Board agendas reflect monthly agenda items to review the District budget and its annual projections, as measured by the monthly Regular Board Agenda and Minutes.		By June 2027, 100% of all Board of Trustee Meeting Agendas will reflect a monthly agenda item to review budget and projections, as measured by the monthly Agenda and Minutes	No Difference.
5.2	Annual budget and projections available on district website	As this metric is new, there is no baseline data. The baseline for this will be set during the SY 2024-2025 and measured by the archived Agenda and Minutes located on the District's website.	During the SY 2024-2025, and measured by the archived Agenda and Minutes located on the District's website, the Annual Budget and all Budget Projections were made available through the District website.		By June 2027, the District website will include a link to the annual budget and projections, as measured by the archived Agenda and Minutes located on the District website	The 2024-2025 Annual Budgets and Annual Projections were made available through the District's website.
5.3	Facilities in Good Repair (FIT) rating	2023-2024 FIT Report overall rating was "Good"	The 2024-2025 FIT report overall rating was still "Good".		By June 2027, the District will maintain a FIT Report overall rating of "Good" as measured by the annual FIT report	No Difference.

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
					which is located on the District website	
5.4	1:1 technology availability (tablet or laptop) for students	2023-2024 technology availability for all students was at 1 to 1 accessibility	The 2024-2025 technology availability for all students was at 1 to 1 accessibility.		By June 2027, the technology availability for all students will remain at 100% 1 to 1 accessible to all students	No Difference.
5.5	Potable water availability at all plumbing fixtures on campus	The District will report the progress of the 2014 State Water Project Grant Construction Project, quarterly to the Board of Trustees measured by the monthly Agenda and Minutes.	Thought the SY 2024-2025, the District reported, at least quarterly, on the progress of the 2014 State Water Project Grant Construction.		By June 2027, the 2014 State Water Project Grant Construction Project will have been completed and signed over to LJSD, as reported to the Board of Trustees and included on the Board Agenda and Minutes.	The District did report, at least quarterly on the progress of the 2014 State Water Project Grant Construction.
5.6	All classrooms featuring Positive Behavioral Interventions and Supports-oriented features	As this metric is new, there is no baseline data. The baseline for this will be set during the SY 2024-2025 and measured by the student responses to the following two prompts on the Spring 2024 survey: "My classroom is a safe place (physically and emotionally) for me to learn" and "I think my teacher makes our			By June 2027, 100% of all student respondents to the Spring student survey prompts, "My classroom is a safe place (physically and emotionally) for me to learn" and "I think my teacher makes our classroom a welcome place for all students" will

	reports to Board (monthly)	data. The baseline for this will be set during the SY 2024-2025 and measured by the monthly reports to the Board, by the Home and School Communication Team, as represented by the monthly Agenda and Minutes	Communication Team reported monthly to the Lakeside School Community Foundation, but did not report to the LJSD Board of Trustees, during their monthly meetings.		Communication team will have reported monthly to the Board of Trustees, as reflected on the monthly board agendas and Minutes	Communication Team reported monthly to the Lakeside School Community Foundation, and the LSCF reported monthly to the LJSD Board of Trustees monthly, the HSCT did not report directly to the LJSD Board at any monthly meetings.
5.15	Special education capacity / utilization reporting to Board	As this metric is new, there is no baseline data. The baseline for this will be set during the SY 2024-2025 and measured by the monthly Special Education capacity/utilization reports to the Board, as represented by the monthly Agenda and Minutes	During the 2024-2025 SY the Board of Trustees received at least quarterly, but not monthly, capacity/utilization reports to the Board, as represented by the monthly Agenda and Minutes.		By June 2027, the Board of Trustees will received monthly reporting on the special education capacity and utilization as demonstrated on monthly board agendas	During the 2024-2025 SY the Board of Trustees received at least quarterly, but not monthly, capacity/utilization reports to the Board, as represented by the monthly Agenda and Minutes.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA did not develop and deliver survey questions pertaining to Goal 5.6 and 5.8 so was unable to capture and report out on the success/failure of those goals and the progress to goal outcomes.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 5.2 expenditures were less than budgeted because the anticipated administrator expense of this was far less than expected. The District and LTA maintain monthly standing meetings as well as annual Contract negotiations around salaries and benefits. The actual administrative costs for these meeting was far less than anticipated to mutually satisfy both parties.
Although admirable, Goal 5.3's focus of creating and maintaining a facility plan was unrealistic considering the actual implementation of such when involving only part-time personnel in the maintenance and operations department. With the resignation of one part-time facilities director in September of 2024, and the subsequent hiring of a replacement, the LEA was only able to hire a highly skilled and experienced manager who was available 20 hours/week. this lowered expenditure, coupled with completing fewer objectives and tasks manifested a reduced expenditure than the budgeted amount.
The actual expenditures for Goal 5.4 were less than budgeted due to the late (mid-year) development of the Capacity Grant Program that is focused on student wellness. The classroom and general use spaces on campus, now that the Capacity Grant Program is fully developed and personnel in place, will be enhanced to further to create (educationally, physically, socially, and emotionally) safe learning environments that are inclusive of learning and physical differences (i.e. functionally organized and welcoming materials/spaces such as carpets, calm-down corners, accessible ramps to all learning spaces), as led by school administration and the instructional staff, where in SY 2024-2025 it was not completed, and thereby the actual expenditures were less than budgeted.
Though the LEA planned Goal 5.5 and Goal 5.6 to accomplish this described objectives, and use the projected budget, the LEA failed to implement these plans and personnel to accomplish these two goals. It is incumbent upon the LEA to fully actualize these goals and expend the budget to accomplish both of the goals in SY 2025-2026.
Goal. 5.7 had far less expenditures than budgeted because fewer events were created to operationalize this goal (e.g., assemblies, guest speakers, etc.) and the LEA’s expense of the newly adopted social studies curriculum (History Alive/TCI) was accomplished with a different and lower funding source. The teachers did spend time, individually and collectively investigating the new SS adoption and its implementation into their classrooms and instruction, but again, this expense was not designated through the budget of Goal 5.7
The budgeted expenditures for Goal 5.8 were eliminated because the Home to School Communication team itself consisted of volunteers from within the community (mostly parents) which encumbered no expenditures, and the there were few if any school-family partnerships created with little or no Low Income, Foster Youth, and English Language Learner families.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Because the LEA did not develop and deliver LCAP survey questions pertaining to Goal 5.6 and 5.8, the LEA has no data with which to measure effectiveness of the goals or actions to meet goal outcomes. Additionally, the Home School Communication Team reported monthly to the Lakeside School Community Foundation, but did not report directly to the LJSD Board of Trustees monthly meetings. The District continued to maintain effective relations with the community at large (passing a $647 Parcel Tax in the November election) and maintained a safe space for students to d staff to learn and work together.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

The LEA is scheduling the development and deliver of the missing LCAP survey questions for dissemination in mid-May, and the inclusion of the Home School Communication Team reporting monthly to the LJSD Board of Trustees monthly meeting.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
5.1	Provide reporting on budget projections and plans for maintaining a balanced budget	Ensure internal controls and requirements are in place with appropriate administrative approval for all expenditures once the LJSD Budget is Board approved	$40,000.00	No
5.2	Provide reporting on budget projections and plans for maintaining a balanced budget	Collaborate with labor associations to assure District and School site spending decisions are transparent	$10,000.00	No
5.3	Maintain and upgrade facilities to best support learning	Create, publish, and implement an ongoing facilities maintenance plan by collaborating with staff and service providers (including potable water, turf lawn, buildings, tech, garden, etc)	$2,000.00	No
5.4	Create safe and inclusive spaces	Create (educationally, physically, socially, and emotionally) safe learning environments that are inclusive of learning and physical differences (i.e. functionally organized and welcoming materials/spaces such as carpets, calm-down corners, accessible ramps to all learning spaces)	$9,000.00	No
5.5	Communicate safety plans	Create and communicate emergency preparedness protocols (including lakeside as an emergency hub during broader disasters)	$4,000.00	No

Action #	Title	Description	Total Funds	Contributing
5.6	Communicate safety plans	Create and communicate physical/mental health safety plans and protocols (including bullying, violence, self harm)	$1,000.00	No
5.7	Provide high quality materials and instructional supports	Provide content that fosters and reflects an understanding of multiple perspectives, critical issues, and the diversity of our world while offering different entry points, options for exploration, and end products	$1,500.00	No
5.8		"Home to School Communication" team to promote school-family partnerships with Low Income, Foster Youth, and English Language Learner families. There is no additional funding for this goal as it is part of the District's existing funding.	$0.00	No
5.9	Provide fundamental foundations for Low Income, Foster Youth, English Language Learners, and SPED	Provide Foster and Low Income youth with access to necessary tools and supports at home: (chromebooks, headphones, etc)	$1,000.00	No
5.10	Provide fundamental foundations for Low Income, Foster Youth, English Language Learners, and SPED	Hire sufficient special education staff to provide student access to appropriate education and/or provide targeted training for current specialized staff to enhance effectiveness	$198,828.00	Yes
5.11	Provide fundamental foundations that support, reflect, and model diversity, equity, inclusion, and belonging for Low Income, Foster Youth, English Language Learners, and SPED	Provide learning opportunities for all students to interact with and experience appropriate and meaningful activities that actively engage students that reflect and model diversity, equity, inclusion, and belonging (DEIB)	$3,000.00	No

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2025-26]

Total Projected LCFF Supplemental and/or Concentration Grants	Projected Additional 15 percent LCFF Concentration Grant
$$26,214	$0

Required Percentage to Increase or Improve Services for the LCAP Year

2.541%	0.000%	$0.00	2.541%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
5.10	**Action:** Provide fundamental foundations for Low Income, Foster Youth, English Language Learners, and SPED **Need:** Our unduplicated pupils and students with disabilities are far more the students at greatest risk for failure in public schools. As such, it is important to ensure proper/appropriate programs and services are	Our unduplicated pupils and students with disabilities are far more the students at greatest risk for failure in public schools. As such, it is important to ensure proper/appropriate programs and services are provided to all students so identified. All students with identified needs (504, SST, IEP, AIP, etc.) also have identified and documented services that support those needs and promote student success as the services provide foundational skills, making it incumbent upon Lakeside to hire and maintain the services of	CAASPP results and as measured by the monthly reporting to the Board on the special education capacity and utilization reports/log by said personnel.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	provided to all students so identified. To this end, Lakeside will hire and maintain necessary services for all unduplicated students and Students with disabilities, e.g., occupational therapy, speech and language therapy, mental health services and emotional/psychological support/services. **Scope:** Schoolwide	these appropriate personnel (OT, SLP, school counselor, BCBA, etc.) so that all of our students do succeed. Lakeside Joint School District is a single school school district, so the provision of LEA or school wide basis is duplicative/inane/superfluous.	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

NA

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A, Lakeside School does not have a high concentration of foster youth, English learners, and low-income students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	18-to-1	NA
Staff-to-student ratio of certificated staff providing direct services to students	18-to-1	NA

2025-26 Total Planned Expenditures Table

LCAP Year	1. Projected LCFF Base Grant (Input Dollar Amount)	2. Projected LCFF Supplemental and/or Concentration Grants (Input Dollar Amount)	3. Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
